by WFADHD Vice President **Jan Buitelaar**

9th World Congress on ADHD

Modernising the concept of ADHD

18 – 21 May 2023 | RAI Amsterdam

Loading times of the videos may vary depending on your internet connection.

The aim of the World Congress on ADHD...

...is to disseminate education about ADHD and advocate for patients and their families by having world experts teaching clinicians, researchers and other ADHD stakeholders how to use scientific facts and clinical wisdom to create better outcomes for people with ADHD.

Our association was founded in 2007 at the 1st International Congress, which was held in Würzburg, Germany.

Scientific Programme Committee (SPC)

The SPC develops the scientific programme for the World Congress on ADHD, which takes place every two years.

[More Information](#)

Local Organizing Committee (LOC)

For each new World Congress, the World Federation of ADHD calls in a Local Organizing Committee (LOC).
