

Program

Wednesday, June 07 2023.

Day 1

Theme: From neurobiology to education: Are we any closer to finding the cause(s) of dyslexia?

08.00 – 09.00 **Registration, Coffee and Welcome**

09.00 – 10.00 Keynote 1: **Charles Hulme**: “Learning to Read: The critical role of oral language skills for both decoding and comprehension”

10.00 – 11.00 **Oral session 1**

11.00 – 11.30 **Coffee Break**

11.30 – 12.30 **Oral session 2**

12.30 – 13.30 **Lunch**

13.30 – 14.30 **Coffee and Posters Session 1**

14.30 – 16:30 Invited symposium 1: Chair: **Simone Gori**: “Visual attention and reading: cause or consequence?”

16:30 – 17:30 Keynote 2: **Sylvia Brem**: “Letter-speech sound processing in the brain – the key to reading acquisition”

Thursday, June 08 2023.

Day 2

09.00 – 10.00 Keynote 3: **Franck Ramus**: “Good practices in the investigation of developmental dyslexia”

10.00 – 11.00 **Oral session 3**

11.00 – 11.30 **Coffee Break**

11.30 – 12.30 **Oral session 4**

12.30 – 13.30 **Lunch**

13.30 – 14.30 **Coffee and Posters Session 2**

14.30 – 16:30 Invited Symposium 2: Chair: **Sendy Caffarra**: “Longitudinal studies in reading acquisition”

16:30 – 17:30 Debate: **Usha Goswami and Anne-Lise Giraud**: “Dyslexia in the two hemispheres: Insights from neural oscillations”.

Usha Goswami - Phonology and the Right Hemisphere: A Temporal Sampling Perspective

Anne-Lise Giraud - The role of the phonemic sampling scale in speech processing and reading

17:30 – 18:00 **Closing remarks**

20:30 CONFERENCE DINNER (*To be announced*)
