

TUESDAY MAY 9						
07.00 - 07.30	TC1: Added value of neuromuscular ultrasound in clinical neurophysiology E. Montvilas (Denmark) J. Bland (UK) N. Wolfram (Denmark) AL. Moreira (Brazil)					
07.30 - 08.00						
08.00 - 08.30						
08.30 - 09.00		TC2: Paediatric seizures and epilepsies: from EEG and seizure semiology to syndrome diagnosis and etiology in gene related epilepsies L. Chaton (France) M. Eisermann (France) L. Mazzola (France)	S1: Connectivity and function in the temporal lobe L. Maillard (France) A. Trebuchon (France) M. Lambon Raph (UK)	MEETING 1: Assistants & Technicians (French speaking)	S2: New insight in clinical neurophysiology of movement disorders and dementia I. Rektor (Czech Republic) L. Bonanni (Italy) E. Moro (France)	TC3: Electrophysiologic tests of neuromuscular junction dysfunction E. Stalberg (Sweden) H. Erdem Tilki (Turkey) J. Zidar (Slovenia)
09.00 - 09.30						
09.30 - 10.00						
10.00 - 10.30	Networking coffee break time in the exhibit area					
10.30 - 11.00	S3: Laser evoked potentials: their interpretation from bench to bedside M. de Tommaso (Italy) M. Valeriani (Italy) U. Baumgärtner (Germany)	TC4: Infant ENMG: how to proceed ? Y. Pereon (France) C. Gitiaux (France) M. Pitt (UK)	S4: How to find lesion in non-lesional focal epilepsies? M. Guye (France) I. Rektor (Czech Republic) S. Beniczky (Denmark)	TC5: Axonal Excitability Studies and MScanFit MUNE J. Howells (Australia) H. Bostock (UK) K. Jones (Canada) C. Lin (Australia)	S5: The role of clinical neurophysiology in the diagnosis, follow up and treatment of neurodegenerative diseases with cognitive decline S. Filipovic (Serbia) A. Kamondi (Hungary) M. Habek (Croatia)	TC3 - part 2
11.00 - 11.30						
11.30 - 12.00						
12.00 - 12.30	Networking lunch Break time in the exhibit area					
12.30 - 13.00						
13.00 - 13.30	S6: New insights in the neurophysiology of language C. Kell (Germany) V. Piai (Netherlands) B. Morillon (France)	S7 : MEG in clinical practice: towards routine clinical use? S.Rampp (Germany) X. De Tiège (Belgium) F.Bonini	TC6: What information electrodiagnostic examination does not provide? G. Sirin (Turkey) M. Baslo (Turkey) E. Kocasoy Orhan (Turkey)	Meeting 2 Assistants and Technicians (English speaking)	TC7: Quantitative Electromyography C. Krarup (Denmark) S. Birk (Denmark) C. Crone (Denmark) Ozden Sener (Turkey)	TC8: EEG in infancy – Boot Camp R. Pressler (UK) M. Eisermann (France) A. Datta (Switzerland) G. Boylan (Ireland)
13.30 - 14.00						
14.00 - 14.30						
14.30 - 15.00	Networking coffee break time in the exhibit area					
15.00 - 15.30	S8: Clinical Neurophysiology & Covid in 2023 L. Leocani (Italy) P. Derambure (France) H. Tankisi (Denmark)	TC9: How and when to test autonomic nervous system? M. Habek (Croatia) J. Panicker (UK) A. Fanciulli (Austria)	TC10: Muscle Excitability Testing W. Z'Graggen (Switzerland) AG. Kristensen (Denmark) K. Ng (Australia)	S9: Language and Communication: Neurophysiological basis, mapping and (intraoperative) monitoring C. Weiss Lucas (Germany) J. Sarnthein (Switzerland) F. Vergani (UK)	S10: NIBS for parkinsonism: towards better understanding and modulation of difficult to-treat symptoms I. Rektorova (Czech Republic) H. R Siebner (Denmark) A. Pilotto (Italy)	TC8 - part 2
15.30 - 16.00						
16.00 - 16.30						
16.30 - 17.00	Networking coffee break time in the exhibit area					
17.00 - 17.30	The Lopes da Silva Lecture in EEG and central neurophysiology: Patrick Chauvel, France/USA					
17.30 - 18.00						
18.00 - 18.30	OPENING CEREMONY (Tribute to French Society of Neurophysiologie - Marseille History)					
18.30 - 19.00						
19.00 - 19.30						
19.30 - 20.00	WELCOME RECEPTION					
20.00 - 20.30						

WEDNESDAY MAY 10						
07.00 - 07.30				Industry early morning workshop	Industry early morning workshop	Industry early morning workshop
07.30 - 08.00						
08.00 - 08.30	S11: New perspectives of Therapeutic applications of Non Invasive Brain Stimulation S. Jääskeläinen (Finland) C. Baeken (Belgium) L. Leocani (Italy)	TC11: Laryngeal EMG (LEMG) S. Santiago-Perez (Spain) I. Garcia-Lopez (Spain) A. Martinez-Perez (Spain) PT. Kimaid (Brazil)	S12: Novel Neurophysiological Methods of Neuromuscular Junction Assessment H. Katzberg (Canada) M. Tannemaat (Netherland) M. Alcantara (Canada)	TC12: Updates on the neurophysiological assessment of thermo-nociceptive pathway function A. Truini (Italy) L. Marinelli (Italy) C. Leone (Italy)	S13: Clinical neurophysiology of falsehood: from simulation to dissociative symptoms D. Ciampi de Andrade (Denmark) L. Garcia-Larrea (France) M. Hallett (USA)	TFT1: Carpal tunnel syndrome diagnosis and treatment V. Reid (Ireland)
08.30 - 09.00						TFT2: An reappraisal of F-waves: Beyond latency measurements E; Chroni (Greece)
09.00 - 09.30						TFT3: Use of myography in ALS P. Proot (Belgium)
09.30 - 10.00	The Hagbarth Lecture in human neurophysiology: Håkan Olausson, Sweden					
10.00 - 10.30						
10.30 - 11.00	Networking coffee break in the exhibit area					
11.00 - 11.30	S14: The Genesis of seizures: from animal models to human recordings F. Bartolomei (France) M. Di Curtis (Italy) A. McGonigal (France)	S15: ICU-Acquired weakness: Clinical and electrophysiological aspects M. De Carvalho (Portugal) W. Z'Graggen (Switzerland) L. Larsson (Sweden)	S16: New neurophysiological methods in research and the clinic R. Whittaker (UK) C. Leone (Italy) J. Alix (UK)	TC13: Neurophysiological examinations in childhood and adolescence: application in the clinical setting, current state and future developments O. Maier (Switzerland) P. Broser (Switzerland)	TC14: Transcranial brain stimulation in aging and cognitive decline: what works and what fails A. Antal (Germany) W. Paulus (Germany) S. Filipovic (Serbia)	TFT4: Motor and sensory evoked potentials in Radiculopathies A. Gechev (UK)
11.30 - 12.00						TFT5: EDX evaluation of plexopathies D. Rubin (USA)
12.00 - 12.30						TFT6: EDX evaluation of GBS N. Shahrizaila (Malesia)
12.30 - 13.00	Networking lunch break in the exhibit area					
13.00 - 13.30						
13.30 - 14.00	OC 1 Best papers from NCCN	S17: What intracerebral stimulation teaches us about SUDEP S. Schuele (USA) S. Rheims (France) B. Diehl (UK)	TC15: Critical Care EEG Monitoring Across the Age Spectrum N. Abend (USA) R. Pressler (UK) M. Leitinger (Austria)	S18: Neurophysiological tests helping with the differential diagnosis in movement disorders A.M.M Van Der Stouwe (The Netherlands) F. Morgante (United Kingdom) J. Valls-Solé (Spain)	TC16: Follow up of disorder of consciousness from acute to chronic phase in clinical practice A. Grippo (Italy) A. Estraneo (Italy) A. Thibaut (Belgium)	TC17: The entrapment syndromes of the upper limb – the diagnosis and the neurophysiological evaluation M. Banach (Poland) J. Pigonska (Poland) M. Koszewicz (Poland)
14.00 - 14.30						
14.30 - 15.00						
15.00 - 15.30	POSTER SESSION 1					
15.30 - 16.00						
16.00 - 16.30	Networking coffee break in the exhibit area					
16.30 - 17.00	OC 2	S19: Sleep and epilepsy : insight from intracranial recordings I. Lambert (France) L. Peter-Derex (France) L. Nobili (Italy)	TC18: Use of 'SFEMG' in paediatric J. Deeb (UK) M. Pitt (UK) G. Cooray (UK)	S20: Update in Epilepsy Syndromes of Early Childhood - Classification and EEG criteria R. Pressler (UK) S. Goyal (UK) A. Datta (Switzerland)	TC19: Visual Electrophysiology A. El Gohary (Egypt) H. Elhabashy (Egypt) A. Hussein (Egypt)	TC20: How to perform rTMS and tDCS in practice? J-P. Lefaucheur (France) S. Rossi (Italy) Yoshikazu Ugawa (Japan)
17.00 - 17.30						
17.30 - 18.00						
18.00 - 18.30	Satellite Industry Symposium					
18.30 - 19.00						
19.00 - 19.30						
19.30 - 20.00						
20.00 - 20.30	YOUNGSTERS EVENT					
20.30 - 21.00						

THURSDAY MAY 11						
07.00 - 07.30				TC21: Electrophysiological Assessment of Motor Unit Count and Motor Unit Behaviour. MUNIX and Decomposition EMG. M. Weber (Switzerland) C. Neuwirth (Switzerland) P. Contessa (USA) J.Richards (UK)		TC22: Neurodevelopmental prognosis and EEG in extremely preterm newborns E. Bourel-Ponchel (France) MD. Lamblin (France) L. Routier (France)
07.30 - 08.00		Industry early morning workshop	Industry early morning workshop		Industry early morning workshop	
08.00 - 08.30						
08.30 - 09.00	OC 3	S21: Simultaneous recordings of EEG/MEG and intracranial EEG : new windows on epileptic and cognitive networks A. Barborica (Romania) S. Vulliemoz (Switzerland) L. Koessler (France) CG. Benar (France)	S22: Personalized therapeutic perspectives of Non-Invasive Brain Stimulation J-P. Lefaucheur (France) A. Antal (Germany) U. Ziemann (Germany)		S23: A Neurophysiology Approach to Non-ordinary States of Consciousness: Meditation, Hypnosis, Trance, and Psychedelics Ch. Timmermann (UK) A. Poublan (France) A. Vanhaudenhuyse (Belgium)	
09.00 - 09.30						
09.30 - 10.00						
10.00 - 10.30	Networking coffee break in the exhibit area					
10.30 - 11.00	The Buchthal Lecture in EMG and peripheral neurophysiology: Matthew Kiernan, Australia					
11.00 - 11.30						
11.30 - 12.00	GENERAL ASSEMBLY					
12.00 - 12.30	Networking lunch break in the exhibit area					
12.30 - 13.00						
13.00 - 13.30						
13.30 - 14.00	TFT7: Neurophysiology of Small Fiber Neuropathy JP. Lefaucheur (France)	S24: Neonatal hypoxic-ischemic encephalopathy and EEG G. Boylan (Ireland) G. Loron (France) E. Bourel-Ponchel (France)	S25: Combining TMS and EEG - Bridging the gap from basic research to clinical utility C. Tscherpel (Germany) A. Mengel (Germany) C. Casarotto (Italy)	TC23: Polysomnography in Clinical Practice L. Teunissen (Netherlands) V. Van Kasteel (Netherlands)	TC24: Tips and traps when conducting needle EMG examination Y. Pereon (France)	S26: Can we determine deep foci and the extension of the epileptogenic zone? M. Seeck (Switzerland) S. Vuillemoz (Switzerland) C. Grova (Canada)
14.00 - 14.30	TFT8: Quantitative sensory testing & Pain KK Petersen (Denmark)					
14.30 - 15.00	TFT9: Conditioned Pain Modulation Protocols A. Mouraux (Belgium)					
15.00 - 15.30	POSTER SESSION 2					
15.30 - 16.00						
16.00 - 16.30	Networking coffee break in the exhibit area					
16.30 - 17.00	The electrophysiological consequences of brain injury: cortical sleep in the awake brain. M. Massimini - 45 min					
17.00 - 17.30	Tonic responses and conscious perception through the glasses of intracranial recordings. P. Avanzini - 45min					
17.30 - 18.00	Satellite Industry Symposium					
18.00 - 18.30						
18.30 - 19.00						
19.00 - 19.30	NETWORKING EVENT					
19.30 - 20.00						
20.00 - 20.30						
20.30 - 21.00						

FRIDAY MAY 12						
07.00 - 07.30				TC25: Intraoperative neurophysiological monitoring (IONM): technical aspects, troubleshooting, pitfalls and safety D. Kefalas (UK) J. Urriza (Spain) G. Perez-Fajardo (Spain) AM. Husain (USA)	TC26: Performing single and paired-pulse TMS tests single-handed G. Samusyte (Lithuania) B. Cengiz (Turkey) M. Koltzenburg (UK) F. Awiszus (Germany)	
07.30 - 08.00						
08.00 - 08.30						
08.30 - 09.00	TC27: High Density EEG L. Koessler (France) M. Gavaret (France) C. Benar (France)	S27: Demyelinating neuropathies N. Birouk (Morocco) JP. Camdessanche (France) Y. Pereon (France)	S28: Cortical overexcitation, cognitive deficits, and productive neuropsychiatric symptoms in pathological aging: a window on vigilance regulation systems U. Hegerl (Germany) C. Babiloni (Italy) B. Güntekin (Turkey)			TFT11: EEG benign epileptiform transients E. Pruvost-Robieux (France)
09.00 - 09.30				TFT12: Parasomnias and frontal lobe seizures A. M. da Silva (Portugal)		
09.30 - 10.00				TFT13: Use of EMG to analyze tremor and jerky movement disorders M. Hallett (USA)		
10.00 - 10.30	POSTER SESSION 3					
10.30 - 11.00						
11.00 - 11.30	Networking coffee break in the exhibit hall					
11.30 - 12.00	Presidential Lecture: Hatice Tankisi (Denmark)					
12.00 - 12.30	Presidential Lecture: Jonathan Cole (UK)					
12.30 - 13.00						
13.00 - 13.30	Networking lunch break in the exhibit hall					
13.30 - 14.00						
14.00 - 14.30	OC 4	S29: New insight on REM sleep L. Peter-Derex (France) P. Simor (Hungary) H. Bastuji (France)	S30: Deep brain recordings in Movement disorders: current and future applications E. Eusebio (France), ML. Welter (France), G Tinkhauser (Switzerland)	TC28: Advanced sensory neurography with surface and needle electrodes B. Falck (Finland) C. Martinez Aparicio (Spain) C. Chu (China) S. Laaksonen (Finland)	TC29: Signal analysis tools Intracranial recordings/ brainstorm and Epitool/anywave S.Medina (France); B.Colombet (FRANCE)	TFT14: The EEG of coma P. Kaplan (USA)
14.30 - 15.00						TFT15:TBC
15.00 - 15.30						
15.30 - 16.00	CLOSING CEREMONY					
16.00 - 16.30
